Writer's Statement

"Scarier Movie" was an idea of a feature film I had condensed into a short film after the classic series of "Scary Movie" had stopped production. Being fond of the films, I wrote this with Scary Movie as inspiration, but making this a little scarier.

Writer's Bio

Madeline McQueen is a UK-based actress, writer, and director with a background spanning screen, voice, and immersive theatre. She is also a published author, with a multidisciplinary career rooted in both performance and storytelling. Madeline trained at Rose Bruford College, graduating from the Theatre Arts course.

Her creative niche lies primarily within the horror, thriller, and paranormal genres, though she also weaves elements of fantasy and comedy into her work. Madeline's passion for acting naturally expanded into other areas of the entertainment industry, beginning with photography before moving into dancing, and later becoming a salsa teacher—experiences that continue to inform her visual and physical approach to performance and filmmaking.

In 2009, Madeline wrote, directed, and produced her first feature film, *The Hitchhiker's Project*. Since then, she has written multiple film scripts and brought several of them to screen. Her work has gone on to win or place as a finalist and receive recognition at a number of prestigious, well-respected film festivals.

Synopsis

When Sam finds he's being stalked by an unnatural being, he turns to his friend Abbie for help. With the aid of some strangers, can they rid themselves of this entity?

Expanded Synopsis

Sam's love life has always been a little cursed—turns out, literally.

After he and his current girlfriend Clair, sleep together for the first time, Sam discovers he's being stalked by a shape-shifting supernatural entity that can look like anyone and will not stop following him. The rules are simple: don't get close... or die horribly in a way no one puts in a medical textbook.

As the creature inches closer by the day (sometimes wearing very familiar faces), Sam turns to his best friend Abbie for help. Naturally, she thinks he's lost his mind—until the demon shows up to say hello. Just as things go from bad to worse, a highly skilled gang of demon hunters' crashes into the chaos... sort of saving the day. Kind of.

A twisted tale of bad dating decisions, relentless demons, and the real horror of not being able to ghost what's trying to kill you.
